

WOMEN OF INFLUENCE: Construction, Engineering & Architecture

WELCOME TO THE SEVENTH EDITION OF OUR ANNUAL SUPPLEMENT HONORING LA'S MOST INFLUENTIAL WOMEN IN the construction, architecture and engineering fields.

The building industry offers great opportunities for advancement for women. In fact, the industry has managed to avoid any gender pay gap, with women actually making about 1% more than men in average income.

There are a number of particularly stellar women construction professionals in the LA region and we've alphabetically listed some of the best of them here. Congratulations to the extraordinary, trailblazing women who made this list and thank you for your contributions to the Los Angeles economy...and skyline.

Methodology: The professionals featured in these pages did not pay to be included. Their profiles were drawn from nomination materials submitted to the Los Angeles Business Journal. Those selected for inclusion were reviewed by the editorial department. The professionals were chosen based on a demonstration of impact made on the profession and on the Los Angeles community.

WOI: CONSTRUCTION, ENGINEERING & ARCHITECTURE

LISE BORNSTEIN
Partner
KFA Architecture

Lise Bornstein, AIA, is one of two partners/second-generation leaders at KFA, an 80-person Los Angeles architecture and design firm celebrating its 50th anniversary. A passionate advocate for design excellence and inclusivity, she has devoted her career to placemaking and creating spaces where people and communities thrive.

Bornstein has accomplished this in her architectural design practice and in her advocacy for professional growth among her staff and career advancement for women in architecture. She is in charge of project concept and design, and incorporates her love of art and community while achieving her clients' goals. Focused on strong design concepts, she has managed projects with complex entitlement packages, multiple funding sources, and significant community outreach while working collaboratively with constituents.

GIOVANNA BRASFIELD
Chief Executive Officer
Brasfield & Associates LLC

Dr. Giovanna Brasfield, affectionately known as "Dr. G," is chief executive officer of Brasfield & Associates LLC and is a trailblazer in the construction industry, recognized for her transformative leadership and dedication to advancing diversity, equity, inclusion and accessibility. Dr. G has consistently driven innovation in workforce development, leveraging tools to address economic impacts on workforce needs, alleviate labor shortages, and support the career advancement of local communities. Her initiatives have enabled organizations to build more inclusive pipelines for talent, creating opportunities for traditionally underrepresented groups.

One of Dr. G's hallmark accomplishments is her role in increasing the participation of minority- and women-owned businesses in large-scale construction projects.

ADAEZE CADET
Design Principal
HOK

Adaeze Cadet's career reflects both design excellence and sustained leadership in an industry where Black women remain significantly underrepresented. Over the past 18 years, she has navigated bias and discrimination while consistently delivering exceptional work, earning recognition from outlets including Weherville, Lonny Magazine, and Design Milk. Her trajectory is marked by high performance in leadership roles, and a commitment to strengthening the teams and emerging designers she supports.

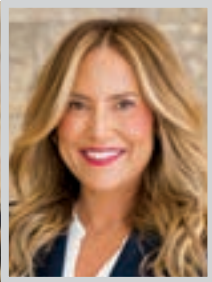

At HOK Los Angeles, Cadet shapes the studio's design culture and establishes a framework for design quality. She is also a registered architect, which allows her to move fluidly between project designer and project architect responsibilities. This versatility supports strong client service and design continuity across large-scale projects.

HUNVEY CHEN
Regional Leader, Healthcare
HOK

Hunvey Chen leads the strategic direction of HOK Los Angeles' Healthcare Practice and serves on HOK's Global Management Board. In these roles, she has been instrumental in expanding HOK's healthcare presence across Southern California by guiding pursuits, project teams, and delivery for highly complex facilities. Her recent work includes City of Hope Orange County at Five Point Gateway Hospital, Universal Health Services' Inland Valley Replacement Hospital and Rancho Springs Expansion, Kedren Children's Village, a confidential hospital in Palo Alto and UCLA healthcare projects.

Chen has also led the VA Long Beach Inpatient and Outpatient Mental Health and Community Living Center, Kaiser Permanente's Baldwin Hills Medical Office Building, and a confidential 100-acre land use plan for a future campus.

MELISSA DEMIRCI
CEO
Transtech

Melissa Demirci has spent nearly two decades of leadership building Transtech's clients from approximately 30 public agencies in 2015 to over 90 in 2025. Based on her business acumen and technical expertise, she was appointed CEO in November 2025.

Throughout her professional career, Demirci has led multidisciplinary teams to solve complex public works and development challenges in support of municipal goals. Key projects she has helped shepherd in her role at Transtech including city parks, active transportation projects, road safety and beautification improvements, and municipal facilities (fires stations, libraries, and other horizontal and vertical projects). Demirci is known as the go-to resource for city managers, public work directions, and elected officials who want to make meaningful progress in their cities.

She SetsThe Standard

Influence isn't something you're given. It's something you demonstrate—every day, on every project.

WOI: CONSTRUCTION, ENGINEERING & ARCHITECTURE

DOLORES DUEÑAS
VP Personnel
Alpha Structural

Dolores Dueñas leads the Personnel Department at Alpha Structural, where she supports the company’s growth by building and strengthening its workforce. Since entering the industry in 2017, she has focused her career on people development, operational excellence, and connecting individuals with roles where they can succeed. Since joining Alpha Structural in May 2024, Dueñas has played a key role in aligning talent with business needs. Her people-first approach helps foster a supportive, accountable workplace that promotes both employee growth and organizational performance. An active member of the National Association of Women in Construction, Dueñas is committed to expanding opportunities for women in the industry. She is also deeply invested in mentorship, taking pride in helping others advance their careers.

KARINA ESHILIAN
Senior Business Development Specialist
Performance Contracting, Inc. (PCI)

For more than 17 years, Karina Eshilian has been a driving force behind the growth, reputation and client success of Performance Contracting, Inc. (PCI) in Southern California. From her early days in public relations and marketing to her current senior business development role, Eshilian has not only witnessed the evolution of PCI but has been instrumental in shaping it. Eshilian’s fingerprints can be found on nearly every major proposal, client initiative, and strategic event PCI has launched over the past decade. She has contributed significantly to winning substantial business opportunities, supporting the company’s growth across key sectors. Known for her ability to connect people and ideas, she transforms client interactions into long-term partnerships.

SHEILA E. FIX
Partner
Wood Smith Henning & Berman, LLP

Renowned as a leading litigator across Southern California, Sheila E. Fix’s reputation as a “go-to” attorney is a testament to her exceptional skill and unwavering commitment to her clients. With an innovative mindset, she crafts creative solutions tailored to the unique challenges of each case, consistently achieving early resolutions for complex civil matters while also excelling in high-stakes courtroom battles. Fix’s expertise is sought after by developers and general contractors nationwide, who rely on her to navigate the intricate landscape of construction disputes. She is consulted before the shovel hits the ground, and years later after projects are complete. Her comprehensive understanding of the multifaceted exposures that arise from various projects sets her apart in the industry.

BARBARA GADBOIS
Partner
Gibbs Giden Locher Turner
Senet & Wittbrodt LLP

Barbara Gadbois, is a senior partner at the Gibbs Giden law firm in Los Angeles, with over 36 years of experience in public and private construction law. She concentrates her practice in the development and management of construction projects, including drafting and negotiation of bid and contract documents, procurement issues, public works, competitive bidding requirements, bid protest issues, pre-qualification, project delivery methods, design-build projects, risk allocation in contracts, claims avoidance, and project closeout. Gadbois’ practice focuses on transactional and project administration matters for residential development, hospitals, and school construction as well as dispute resolution in the hospital-ity sector.

SARA KORNBLOTT
Partner
Gibbs Giden Locher Turner
Senet & Wittbrodt LLP

Sara Kornblatt is a partner whose practice is concentrated in both the development and management of construction projects as well as handling claims and complex litigation matters. She is skilled in drafting and negotiating bid and contract documents for owners, contractors and subcontractors, and handling bid protest and subcontractor substitution issues for both public entity owners and bidders. Kornblatt represents clients in both litigation and arbitration and has successfully advocated for them before the California Court of Appeal. She has served as second chair trial counsel in two multi-million dollar construction disputes, representing a national construction firm and a public entity. Additionally, she is currently serving on several committees in the ABA Forum on Construction Law.

Teams build dreams

Founded in 1944, AECOM Hunt has earned a reputation for being unconditionally client-focused. From iconic stadiums and arenas to next-gen transportation hubs to sustainable healthcare and academic buildings, AECOM Hunt deploys the latest technologies and industry-leading practices to deliver projects on schedule and within budget, no matter the scope. Our teams partner with public and private-sector clients to create innovative, sustainable, and resilient solutions throughout the project lifecycle.

WOI: CONSTRUCTION, ENGINEERING & ARCHITECTURE

CARA MacARTHUR
Director of Interiors
HOK

During her more than 20-year tenure at HOK, Cara MacArthur has built a career defined by leadership, consistency and long-term client trust. For over 12 years, she led more than 200 projects for a global professional services firm, managing teams based in Los Angeles while delivering work across North America. This role required balancing multiple schedules, geographies, and stakeholder groups, while maintaining a high standard of service and accountability.

MacArthur was pivotal in leading the relocation of HOK's Los Angeles studio after more than two decades in Culver City. She guided the planning and delivery of the firm's move to ROW DTLA in the Arts District, a transition that required aligning leadership goals, operational needs and design intent.

HABIBA MANJURR
Senior Project Manager; Team Lead
Clune Construction

Habiba Manjurr has distinguished herself over 19 years in commercial construction through her expertise in highly technical, MEP-intensive projects that push the boundaries of innovation. Her career exemplifies the ability to master complex challenges while continuously expanding her technical capabilities and mentoring the next generation of construction professionals.

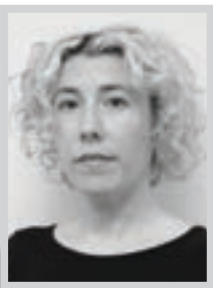

Manjurr's journey in construction began on a project for the GRAMMY Museum, where she spent 2.5 years as a project engineer, watching flat ground transform into an iconic cultural landmark. This foundation prepared her for increasingly sophisticated challenges, including managing seismic upgrades at Northridge Hospital's active NICU floor.

DANIELA MARIN
Recruiting and Training Manager
Build Group, Inc.

Daniela Marin is one of Build Group's most trusted, respected, and high-impact leaders — the kind of executive whose influence is felt across every corner of the organization. In her four years with Build Group, Marin has become the steady, strategic force behind the company's People Operations engine, recently earning a promotion to recruiting and training manager. Her career trajectory is defined not just by what she delivers, but how she delivers it: thoughtfully, collaboratively, and with a level of professionalism far beyond her years.

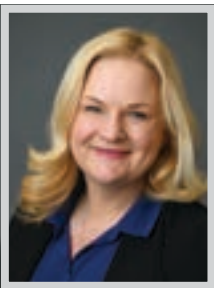

What sets Marin apart is her rare ability to see what needs to be done before others even articulate it — and then assemble the right people, resources, and processes to make it happen. She consistently transforms challenges into opportunities.

BRIDGETTE MARSO
Architect; Designer
Studio UNLTD

Architect and designer Bridgette Marso has helped curate and design some of the most significant properties with her time at world renown architecture firm SAOTA as well as some of the more lavish restaurants and bars in Los Angeles. She spent much of her time working with community housing projects with the City of Los Angeles and Koning Eisenberg architects out of Santa Monica. Her contributions not only to design, but theory have elevated and inspired other women that she works with and around to have a bigger voice in places of leadership within the field.

Outside of her work, Marso has worked with various pet placement organizations around Los Angeles to help foster animals.

DALLAS McCORKLE
Controller
Pinnacle Contracting Corporation

Dallas McCorkle came to Pinnacle two years ago. She entered the role with experience and tenacity proving quickly to be a much needed asset. She arrived with 17 years of controller experience. Prior to joining the Pinnacle team she was the corporate controller of one of the country's largest privately held automotive dealership groups. She oversaw accounting and construction operations for their 15+ dealerships and had a passion for construction operations that led her to make a change and join the Pinnacle Team.

McCorkle's expertise in forecasting, expense management, financial trend analysis and team leadership has made her transition to the team seamless and set Pinnacle up with the infrastructure needed to continue our growth and leadership in the Southern California construction industry.

WE'RE PROUD TO RECOGNIZE

Karina Eshilian

alongside the accomplished professionals honored in the 2026 LABJ Women of Influence program.

Karina's daily dedication to people, leadership, and partnership echoes PCI's core values, and makes her an invaluable figure for both our company and the entire construction industry.

Congratulations to all 2026 Women of Influence driving the AEC industry forward.

PERFORMANCECONTRACTING.COM

ON BEHALF OF THE ENTIRE TEAM AT TURNER CONSTRUCTION,

Congratulations

TO DAISY VERHARST & JAIMIE TURNER

on your well-deserved recognition as Women of Influence in our industry. Thank you for your commitment to Building the Future of Los Angeles and your leadership in advancing the construction industry.

DAISY VERHARST
Special Projects Division, Operations Manager

JAIMIE TURNER
VP & General Manager

Turner

WOI: CONSTRUCTION, ENGINEERING & ARCHITECTURE

MARIA MOHAMMED
Associate
Structural Focus

Maria Mohammed is an accomplished structural engineer whose career exemplifies technical excellence, leadership innovation and a deep commitment to advancing the profession. With over a decade of experience in structural design, project management, and industry leadership, Mohammed has made significant contributions to complex building projects, professional standards, and resiliency practice.

As an associate with Structural Focus since 2013, Mohammed has successfully managed diverse projects from initial concept through construction. She has overseen technical design, financial analyses, and client coordination for a wide range of work, including new commercial buildings, historic preservation, retrofit projects, and multifamily and high-end residential structures.

MAKAYLA NICHOLS
Project Manager
Pinnacle Contracting Corporation

Makayla Nichols started working with Pinnacle Construction part-time when she was only 17 years old. She assisted with office filing and other clerical duties. She became a project engineer in 2017 and quickly proved that she had what it takes to be a project manager. After being mentored by Pinnacle owner & CEO, Michael A. Grossman, for many years she has taken on his passion and commitment to the construction industry.

Nichols recently completed several projects with Pinnacle's largest client and continues to impress with her forward thinking and problem solving skills. She executes her tenant improvements within budget and ahead of schedule. Although she has only been a project manager for a short time, she is requested specifically by many of Pinnacle's top construction management partners.

HANNA POLSON
Project Manager
Shawmut Design and Construction

Hanna Polson has been instrumental in driving the construction of some of Southern California's most iconic and recognizable hospitality spaces. In just seven years, she's worked on both the finance and project management side, with marquee projects from Steak 48 and Alma at The Grove to Soho Warehouse and Apple Tower Theatre. Her commitment to excellence is evident in everything that she does.

In an industry where women make up only 11% of the workforce, Polson has established herself as a leader and is regularly on projects led by women and teams comprised of 50% women. Steadfast in making construction more inclusive, Polson is driven to build up the next generation of future builders and create a platform where other perspectives can be heard.

BEE RAREWALA
Chief Strategy Officer
AC Martin

Bee Rarewala, chief strategy officer of AC Martin (a California-based architecture firm), has centered her 20-plus year career at the nexus of design thinking and business strategy with a passion for developing the next generation of talent and cultivating a culture responsive to both.

As CSO, Rarewala drives business growth through vision-led, strategic planning and acts as a change agent for firmwide transformation. She facilitates key initiatives and investments, drives continuous improvement, and oversees business development strategy, marketing, and communications. AC Martin has thrived from the significant impact of her leadership, creativity and unwavering drive. She inspires through vision, she sees beyond challenges and empowers others to rise to their potential, fostering a culture of innovation.

CALEIGH RAYMER
Senior Vice President;
Southern California Area Manager
AECOM Hunt

Caleigh Raymer has demonstrated a long-standing commitment to workforce development and equity in the construction industry, particularly for women and young people entering the field. She established a scholarship program for women pursuing construction-related careers at a local high school, helping reduce financial barriers and expand access to industry opportunities. In addition, she launched and actively supports a mentorship program at the same school focused on engineering and robotics, introducing students to technical career paths and hands-on learning at an early stage.

Raymer has been instrumental in connecting high school graduates to trade careers by partnering with local unions and subcontractors, sponsoring entry into apprenticeship programs.

Congratulations!

Habiba Manjurr & Kirsten Taylor

WOI: CONSTRUCTION, ENGINEERING & ARCHITECTURE

BETTY LYNN SENES
Project Executive
DPR Construction

A project executive at DPR Construction, Betty Lynn Senes has built an impressive 30-year career delivering complex, high-impact projects for major institutions, including the University of California, California State University, and California Community College systems. Her expertise spans workplace, civic, and higher education facilities, establishing her as a trusted figure in managing the unique demands of academic and workplace environments.

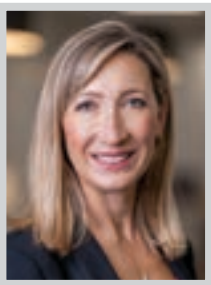

What truly sets Senes apart is her dedication to advancing the industry through integrated and collaborative project delivery methods. A passionate advocate for design-build delivery, she has held multiple leadership roles within the Design-Build Institute of America (DBIA), which defines, teaches and promotes best practices in design-build project delivery.

MARISSA SKINNER
Project Manager
Parker Brown Inc.

Since joining Parker Brown in 2019, Marissa Skinner has become one of those indispensable people every construction firm quietly relies on—the project manager you assign when the job is complex, the timeline unforgiving, and the margin for error slim.

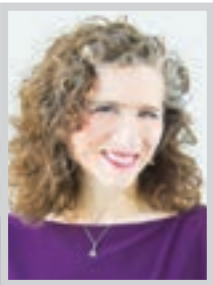

Skinner consistently takes on Parker Brown’s most challenging projects, the ones that demand not just technical competence, but calm judgment, emotional intelligence, and the ability to move seamlessly between very different worlds. On any given day, she may be balancing the expectations of a demanding client, coordinating with architects and engineers, problem-solving with construction crews in the field, and working through permitting and regulatory requirements with city officials. She does this work with clarity, professionalism and a steady hand.

DANIELLE MARTIN SPICER
Studio Principal
AC Martin

Danielle Martin Spicer is a highly respected licensed architect with over two decades of diverse experience in the built environment. Her leadership is grounded in technical expertise, design excellence, and a deep understanding of collaboration and client service.

A graduate of the USC School of Architecture, Spicer worked in architecture firms throughout college and has since contributed her talents at HOK, HMC, and currently AC Martin, where she has been a key leader since 2011. Her portfolio spans K-12 education, civic and justice facilities, laboratories and higher education campuses, always with a commitment to inclusive, sustainable design. As a lifelong athlete, she brings a competitive spirit and strategic mindset to every project—qualities that play a key role in the success of AC Martin.

JULIE TAYLOR
Principal
Taylor & Company

For the past 35 years, the mission of Los Angeles “design evangelist” Julie D. Taylor, Hon. AIA, has been to educate the public about the benefits and importance of professional design and architecture. For 31 of those years, she has led the successful public relations and communications agency Taylor & Company, which she founded during the early 1990s recession.

Taylor built the firm based on her background as a design writer, magazine editor, and director of public relations at the iconic Pacific Design Center in West Hollywood, bridging the gap between design professionals and the media. Among the thousands of articles her firm has placed in more than 3,250 media outlets, nearly 150 have appeared as cover stories for newspapers, magazines, books, and other publications.

KIRSTEN TAYLOR
Director, Marketing
Clune Construction

At Clune Construction, Kirsten Taylor was recently promoted to director of marketing, a title that finally reflects the impact she has been making behind the scenes for years. She consistently strengthens teams, stabilizes operations and builds scalable marketing and proposal systems across regions.

At Clune, Taylor became the steady force behind marketing operations in Los Angeles, San Francisco and Phoenix. She stepped into environments that needed structure, brought clarity to expectations and quietly rebuilt systems in ways that enabled both offices to accelerate growth. Her leadership style is calm and pragmatic. She solves problems, raises standards and involves leadership once the solution is already in motion. She has contributed to high-profile projects including Netflix and Delta One at LAX.

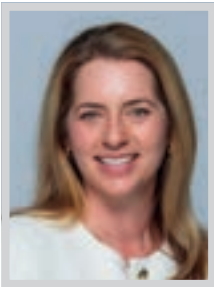

At Pinnacle Contracting Corporation, we are committed to building more than structures—we build trust, relationships, and a legacy of excellence. With decades of experience in the construction industry, Pinnacle has become a trusted partner for clients seeking quality, reliability, and innovation. Our diverse team blends progressive design thinking with proven expertise to deliver projects that not only meet expectations but exceed them.

WE BUILD SOCAL.

JAIMIE TURNER
Vice President; General Manager
Turner Construction Company

Jaimie Turner is an accomplished executive whose career reflects visionary leadership, technical expertise, and an unwavering commitment to people, performance and community. As vice president and general manager of Turner Construction’s Southern California operations, she oversees the Los Angeles market, one of the company’s most dynamic markets. In this role, Turner shapes regional strategy, cultivates high-performing teams, and fosters strong relationships with clients and industry partners. Her ability to pair business acumen with a people-first leadership style has solidified her reputation as an influential and trusted leader in the construction industry. Through her professional achievements, strategic leadership, and dedication to building strong teams and client relationships, Turner stands out as a transformative leader.

DAISY VERHARST
SPD Operations Manager
Turner Construction Company

Daisy Verharst stands out as an exceptional construction professional whose career achievements reflect both remarkable technical expertise and a consistent ability to lead complex, high-profile projects to success. Over her 17 years in the industry, including 15 with Turner Construction Company, Verharst has built a reputation for delivering some of Southern California’s most challenging and highly-visible projects. Verharst’s portfolio ranges from world-class sports venues to highly specialized laboratories, premium corporate interiors, and advanced entertainment facilities. Her work demonstrates mastery of construction management and a unique ability to navigate demanding schedules and intricate design requirements. She has contributed to projects such as SoFi Stadium and YouTube Theater.

California Invests \$26 Million to Recruit More Women Into Construction Careers

In an effort to address statewide construction needs and build equity in the workforce, the Department of Industrial Relations (DIR) and its Division of Apprenticeship Standards (DAS) announced last year that 25 construction apprenticeship programs have been awarded \$26 million in Equal Representation in Construction Apprenticeship (ERiCA) grants. This funding aims to increase access to construction careers for women and disadvantaged communities.

“With this funding, we are addressing barriers that women face when trying to enter into construction careers,” said DAS Chief Adele Burnes. “It has been empowering to see the ERiCA grants at work and watch apprentices successfully land jobs in the skilled trades and earn family-sustaining wages.”

CHILDCARE, RECRUITMENT, AND IMPROVING WORKSITE CULTURE

This new funding will support three core areas identified as needed to hire and retain a diverse workforce in the building trades:

- **\$11.8 million** will go towards offsetting the cost of childcare for pre-apprentices and apprentices. Flexible childcare funding has been identified as one of the primary barriers that women apprentices face in the construction industry. They often need to start working on a jobsite before many daycares open.
- **\$7.2 million** to support targeted recruit-

ment efforts to improve gender representation and advance equity.

- **\$7 million** to improve worksite culture by providing mentoring and mental health support. This funding supports anti-harassment and anti-discrimination training for construction crews to create a more welcoming environment for all.

ERiCA AWARDEES

This is the second round of ERiCA grant funding. During the first round, \$25 million in funds were disbursed to 19 programs.

In this round, 25 building trades organizations that work with programs to recruit, support and retain workers are receiving funding. Awardee highlights include:

- **Cerritos College** received \$1.25 million in ERiCA funding, which will be used to support its field ironwork apprenticeship program, where women are learning how to reinforce concrete with steel and cables.
- **Los Angeles and Orange Counties Building Trades Council Apprenticeship Readiness Fund** received \$2.5 million for childcare, recruitment, and worksite culture. This nationally recognized program provides the skills and training needed to launch successful careers in a range of essential trades, including painting, plumbing, sheet metal works and more.
- **San Diego Electrical Training Trust** received \$700,000 in funding. Through

this program, apprentices are obtaining hands-on experience in sustainable construction projects and learning about electric vehicle infrastructure, as well as solar system design and installation.

- **Associated Builders and Contractors of Southern California** received \$550,000 in funding. Over the next two years, the organization is striving to double the number of women

enrolled in its programs through outreach efforts and strategic partnerships with flagship groups such as the National Association of Women in Construction.

- **The Construction Trades Workforce Initiative (CTWI)** is a program that has demonstrated success and has been awarded \$2.4 million. Apprentices who graduate from CTWI typically earn starting wages of \$75,000 or more per year.

HOW WE GOT HERE

The state plans to invest \$180 billion in infrastructure over the next decade. Workforce development and apprenticeships are central to California’s plan to meet infrastructure needs and large-scale development projects. Governor Gavin Newsom aims to serve 500,000 apprentices by 2029.

Expanding access to equitable building trades apprenticeships is outlined as a key strategy to advance apprenticeships in California, which is outlined by DAS and the Labor Workforce Development Agency’s Five-Point Action Plan.

The Department of Industrial Relations’ Division of Apprenticeship Standards consults with employers to develop a skilled workforce by establishing innovative apprenticeship programs that offer training, to create viable career pathways for Californians.
